3. 🗌	At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).			
4. 🖾	(a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function und 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).			
5. 🗌	The brief does not contain a concise statement of each ground of rejection presented for review (37 CFR 41.37(c)(1)(vi))

	As to 2) the status of all claims is not indicated- example: claim 3. As to 4) there is no reference to the specification by page and line number for each step - Most importantly - for the invention as it relates to the claimed "minimum temperature". It appears that Applicant is interpretting it more narrowly than the previous (retired) examined. Since			

claims are interpretted in light of the specification one must be able to see where the "minimum described in the specification, so as to properly interpret the claims.
